ASSEMBLY INSTRUCTIONS
8mm SLIDING DOOR

For installation between 2 walls, or in a left or right hand corner (using a side panel)

Decide which hand is required. Right hand opening illustrated.
Change the hand by turning the door upside down.

BEFORE YOU START , HERE IS SOME IMPORTANT INFORMATION

1) General Information

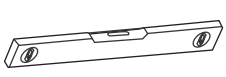

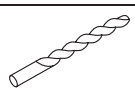

Please inspect this product upon delivery. Any missing parts or manufacturing defects must be reported immediately to the supplier. Damage or defects reported later will not be accepted. **TAKE CARE WHEN HANDLING GLASS PARTS-AVOID HEAVY CONTACT BETWEEN THE GLSS EDGES AND ANY HARD SURFACE.** Glass breakage claims will not be accepted after the product has been unpacked.

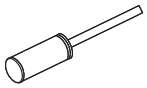

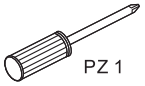

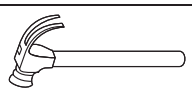

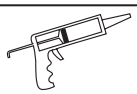

Please note--aluminium is a soft metal, and undergoes a series of extrusion, fabrication, polishing and anodising processes in order to create your finished shower enclosure. Some light surface marks are normal, and is a result of the manufacturing processes. Quality control has ensured that this item is of a good standard, and is fit for purpose.

2) Addition notes

Please read these instructions carefully before starting installation.
Special care should be taken when drilling walls to avoid hidden pipes or electrical cables.
Note:this product is heavy and may require two people to install.
